

CENTER FOR BIOLOGICAL PHYSICS

University of Massachusetts Amherst

Biophysics Research SLAM!!!

December 13, 2017

Coffee and light fare at 8:45 am

Talks begin at 9:00 am in LSL S330

a scientific jam session designed to connect and engender collaborations between life scientists and researchers who develop and use biophysical tools, imaging techniques, physical measurement, and modeling.

A morning session of three minute talks, posters, and lively discussion will be followed by an afternoon of grant and project planning. Topics might include

- Quantitative Bioscience,
- Membranes and Soft Interfaces

Students are invited to participate in a session discussing the Formation of a student chapter of Biophysical Society.

Lunch discussion will focus on the development of an undergraduate Biophysics certificate or program at UMass
